PROPOSAL · 22 OCTOBER 2026

Growing Logsco online.

Website, digital infrastructure, Google visibility and automation for Logsco Agri Technology.

Ummah Collective × LOGSCO AGRI TECHNOLOGY

WHO WE ARE

An applied-AI studio that builds the systems companies grow on.

2022

Founded in Kuala Lumpur, with a team that has built brands, sites and software for 12+ years

100+

Projects delivered: websites, apps, CRMs, AI agents and growth systems

KL · Berlin

European quality standards with local, cultural fluency in Malaysia

Assets over traffic. Systems you own.

Speed is a feature. Weeks, not quarters.

Integrity scales. Transparent and fair.

Ummah Collective · Intelligence, with integrity.

LOGSCO TODAY

A good first step, not yet a sales tool.

Services page shows template text
“Web Design”, “Graphic Design”, not machinery.

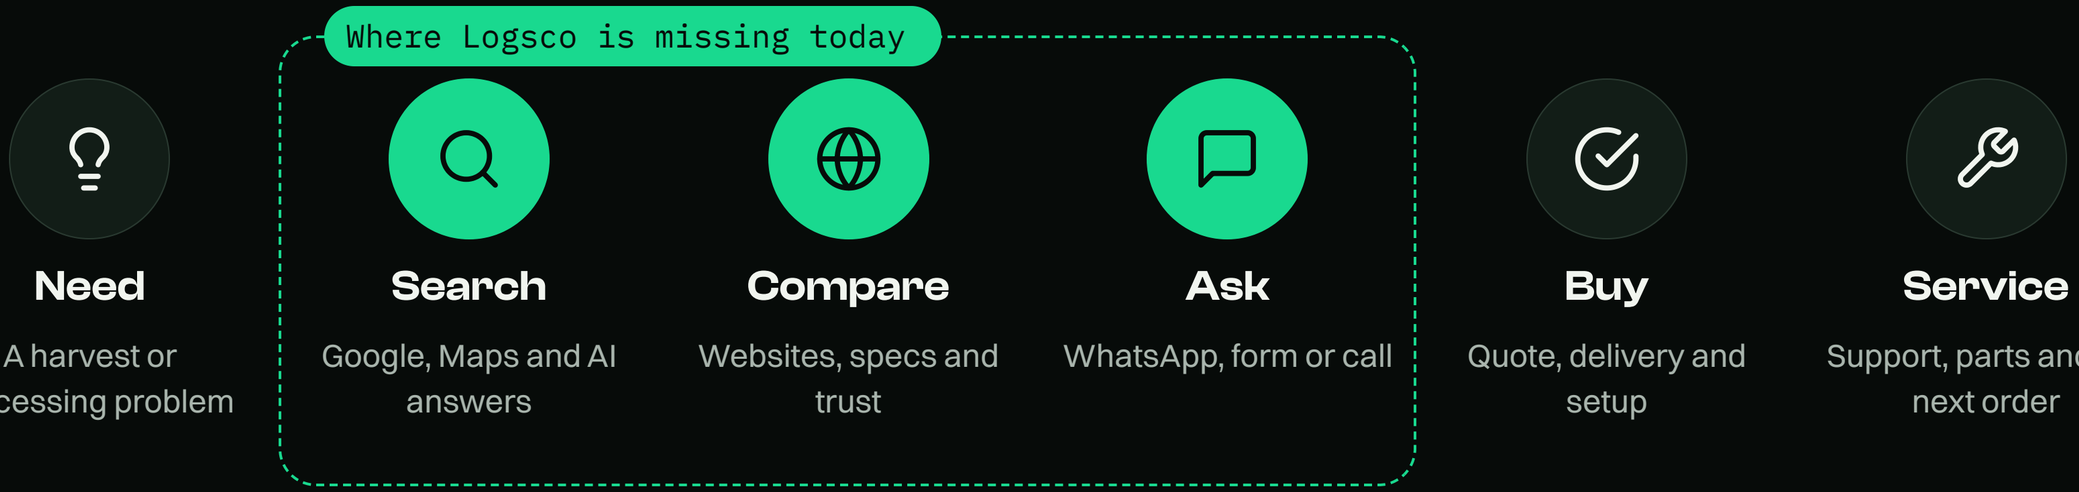

Contact details are placeholders
A sample email and a US phone number.

Nothing for Google to rank
Four pages, no product or machinery pages.

No enquiry follow-up
No WhatsApp, CRM or automatic replies.

THE BUYER'S JOURNEY

How a farm finds a machinery supplier.

If Logsco isn't there when they search, compare and ask, the sale goes to the supplier who is.

WHAT WE BUILD FOR LOGSCO

Four building blocks. One growth system.

01

Website

Fast, bilingual and built to sell, with a page for every machine.

02

Digital infrastructure

Domain, email, analytics, CRM and WhatsApp, all connected.

03

Google visibility

SEO, Google Maps and AI search, so buyers find Logsco first.

04

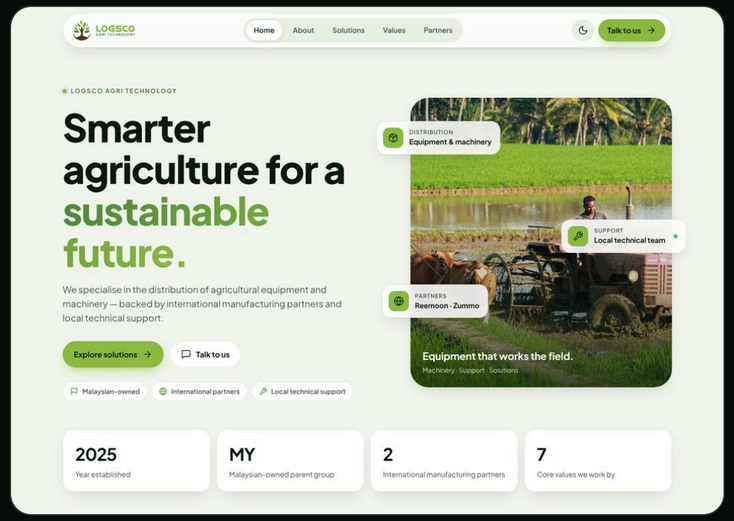

Automation

Every enquiry answered, logged and followed up, day and night.

Found on Google → **Visitors trust the site** → **Enquiries captured** → **More machines sold**

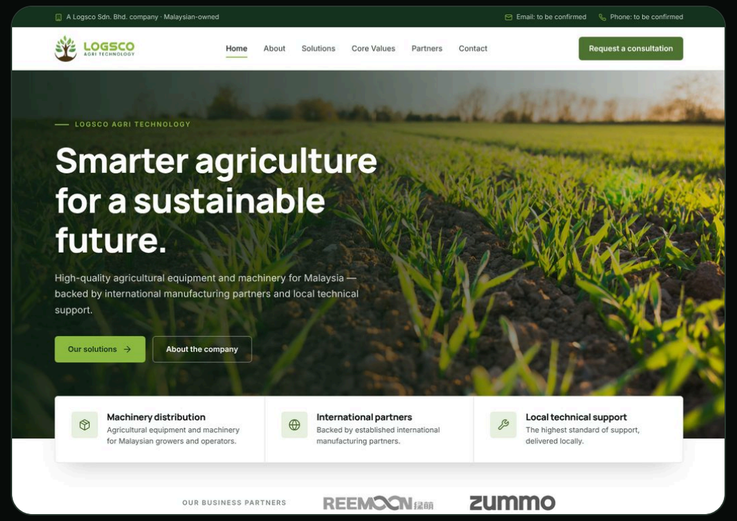

01 · WEBSITE

Three directions, ready to click through.

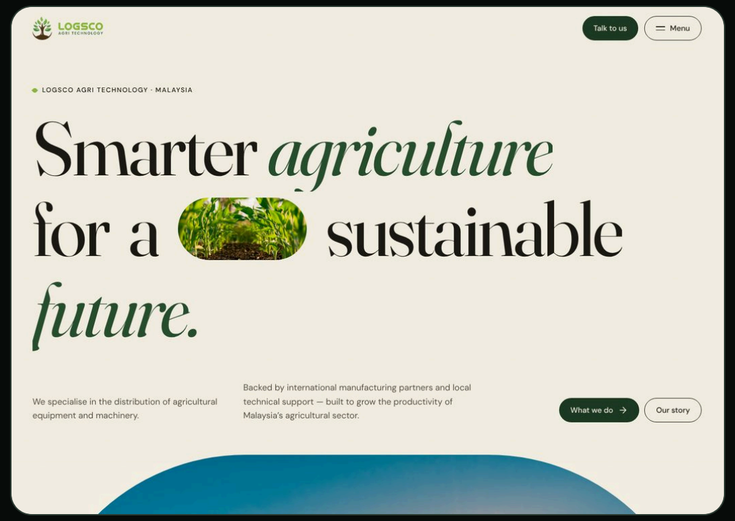

A Modern, app-style

Feels like a product: tiles, live cards, dark mode.

B Corporate

Established and trustworthy for B2B buyers.

C Creative, editorial

Earthy and memorable, with motion.

Mobile-first · Loads fast · A page for every machine · English + Bahasa Malaysia · Enquiry and WhatsApp built in

Live preview: ummah-collective.com/concepts/logsco · password protected

02 · DIGITAL INFRASTRUCTURE

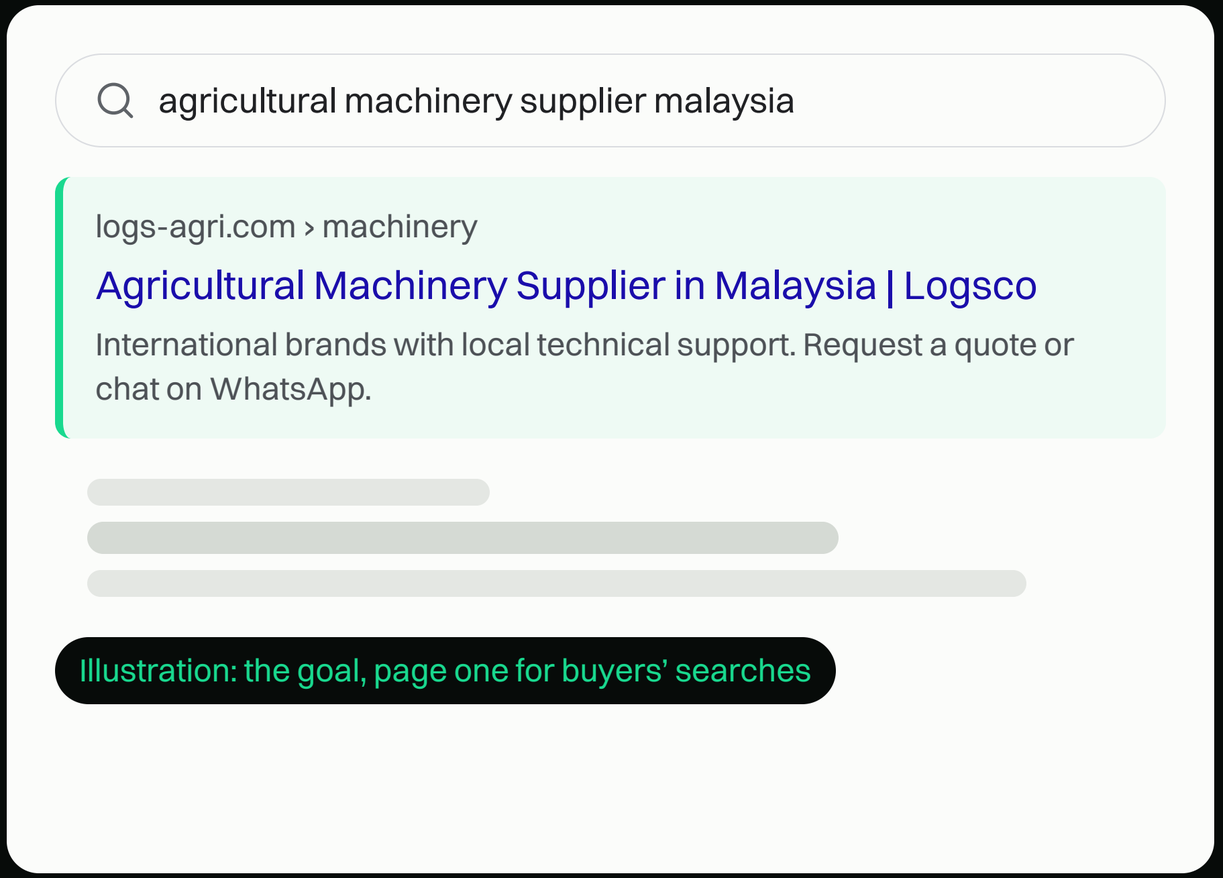

One connected digital foundation.

Everything is measured: we see which searches and pages bring enquiries, and what each enquiry becomes.

03 · GOOGLE VISIBILITY

Be the answer when buyers search.

Technical SEO

Fast, mobile, indexable, structured data.

Content

A page per machine and per farm problem, in English and Malay.

Local

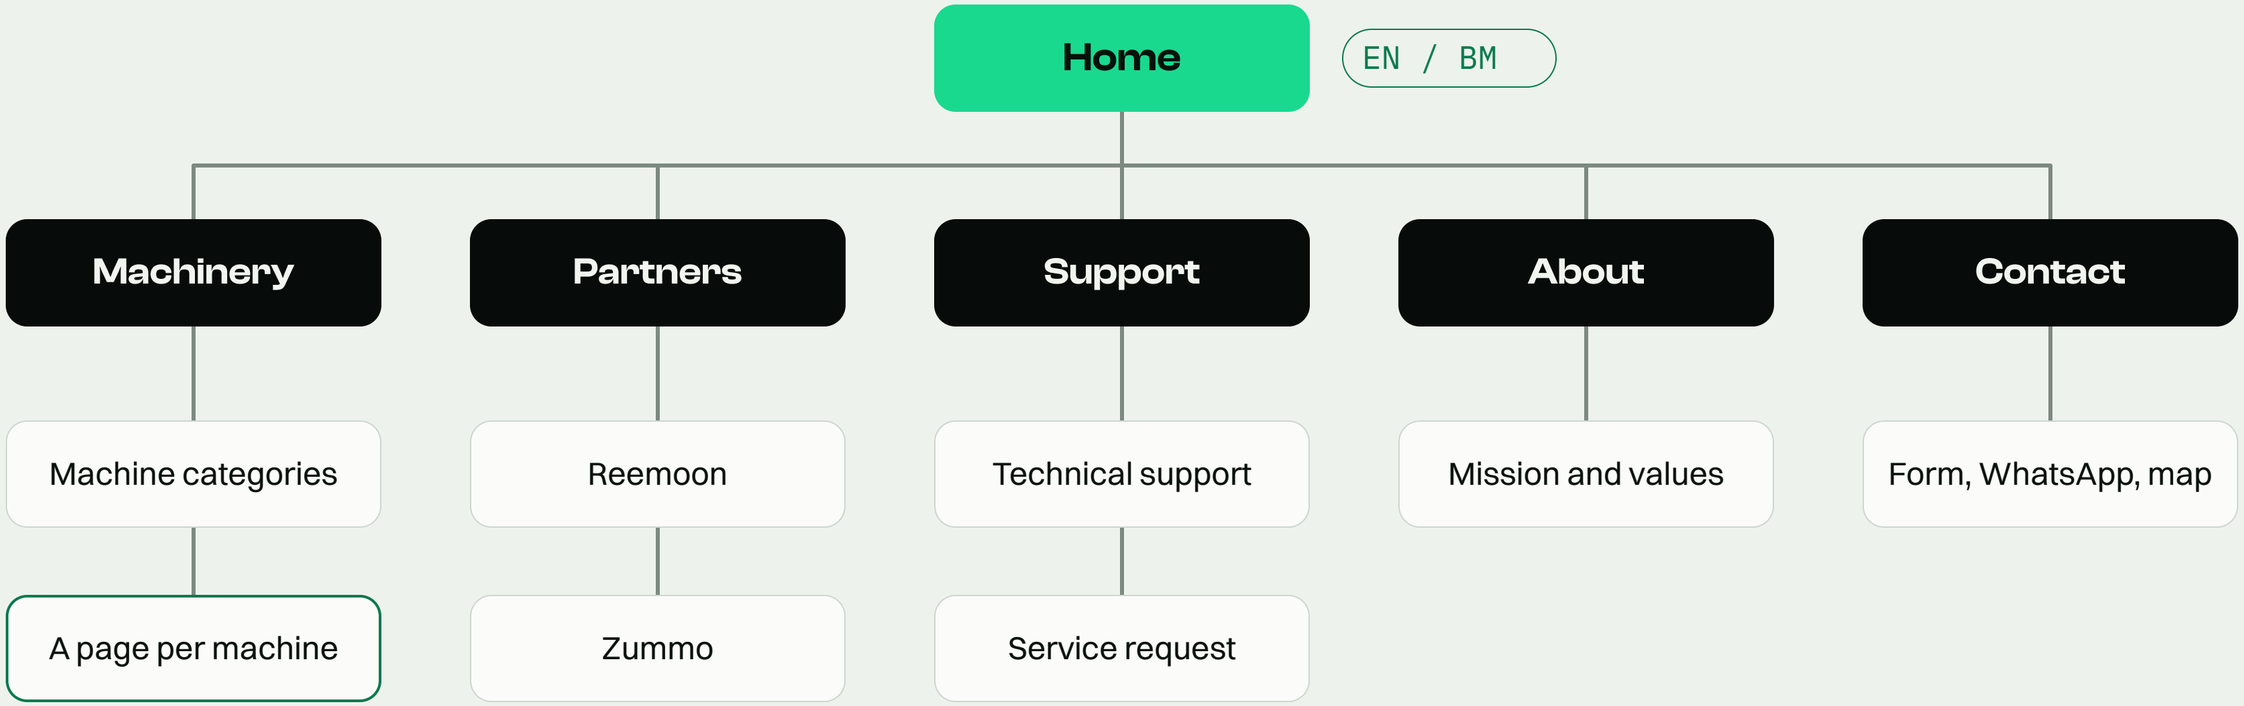

Google Business Profile, reviews and Maps.

Authority and AI search

Partner and directory links, answers in ChatGPT and AI Overviews.

03 · GOOGLE VISIBILITY

A site Google can understand.

Each page answers one search, e.g. a machine type or a brand. Today’s site has four pages; this structure gives Google dozens to rank.

04 · AUTOMATION

Every enquiry answered and followed up.

Enquiry arrives

Website form, WhatsApp or Google

Instant reply

AI assistant answers 24/7, in English or Malay

Saved in CRM

Tagged by machine, region and urgency

Sales alerted

The right person, with full context

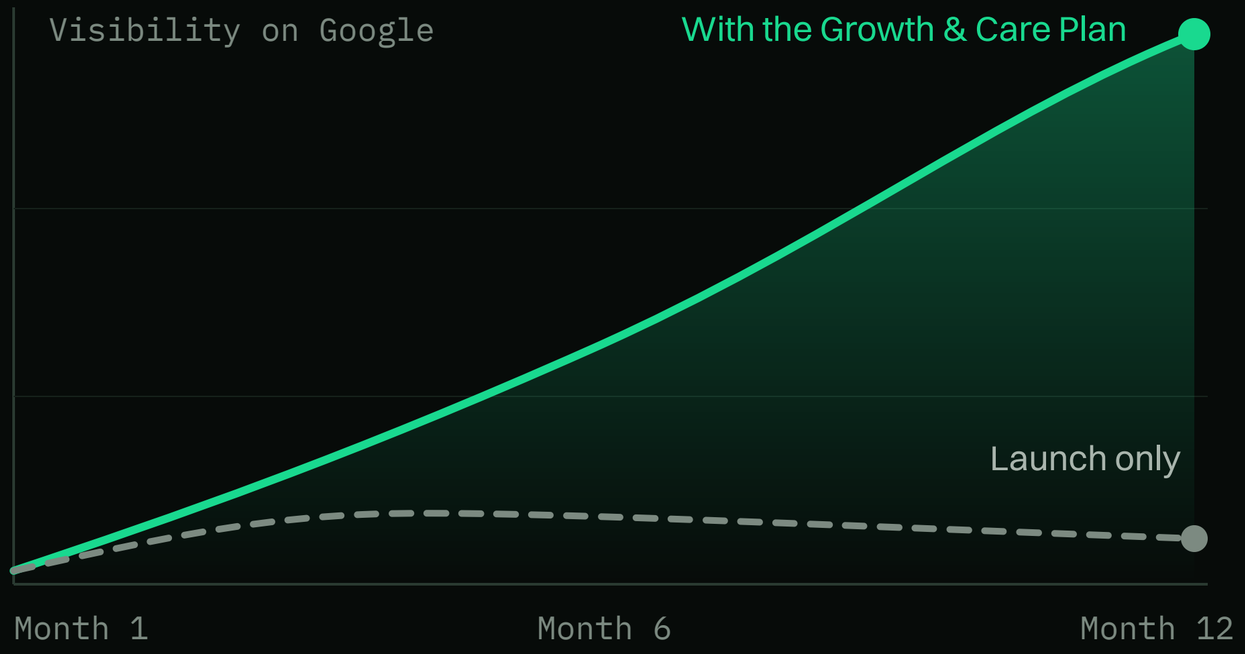

Quote and follow-up

Reminders until there is a decision

- No enquiry gets lost
- Replies in minutes, not days
- Service reminders bring repeat business

WHY SEO IS MONTHLY WORK

SEO compounds, like interest.

Google rewards fresh pages
Every new page is another way to be found.

Competitors don’t stop
Standing still means slowly sliding down.

Search keeps changing
Google updates, Maps and AI answers.

Illustration of the typical pattern, not a forecast.

MAINTENANCE

A website is a machine. It needs servicing.

Without maintenance

- Security gaps, hacked or offline site
- A broken form loses enquiries silently
- Old machines, prices and photos
- Slower pages, falling rankings

With the Growth & Care Plan

- Updates, backups and monitoring
- Forms and WhatsApp tested monthly
- Content kept current within days
- Speed and rankings checked monthly

You service your machines before they break. Your website deserves the same.

THE OFFER

Growth & Care Plan

Your website, SEO and systems looked after every month, by one team.

RM 1,500

per month · about RM 50 a day

Get found

- 2 new SEO pages or articles
- Keyword and ranking tracking
- On-page improvements
- Google Business Profile posts and review replies

Safe and working

- Hosting, SSL and uptime monitoring
- Security and software updates
- Weekly backups
- Form and WhatsApp tests

Report and improve

- Up to 3 hours of content updates
- CRM and automation upkeep
- Monthly report in plain language
- 30-minute review call

Week 1	Week 2	Week 3	Week 4
Check rankings, plan topics	Publish new pages	Updates and Google profile	Report and review call

PROPOSED TIMELINE

From kickoff to launch in about six weeks.

Foundation Build Growth & Care Plan, RM 1,500/month Dashed line: launch. Dates depend on receiving content and the product list.

NEXT STEPS

Let’s grow Logsco together.

01 Choose a website direction: A, B or C.

02 Share the product list, photos and real contact details.

03 We send the proposal: website build plus the Growth & Care Plan.
