UMMAH COLLECTIVE
est 2021

PROPOSAL · 28 OCTOBER 2026

Two websites. One growth plan.

A corporate site for buyers and a brand site for Pina Boosta, grown every month with SEO, and AI agents that bring in leads.

Ummah Collective × LOGSCO AGRI TECHNOLOGY

WHO WE ARE

An applied-AI studio that builds the systems companies grow on.

2022

Founded in Kuala Lumpur, with a team that has built brands, sites and software for 12+ years

100+

Projects delivered: websites, apps, CRMs, AI agents and growth systems

KL · Berlin

European quality standards with local, cultural fluency in Malaysia

Assets over traffic. Systems you own.

Speed is a feature. Weeks, not quarters.

Integrity scales. Transparent and fair.

Ummah Collective · Intelligence, with integrity.

LOGSCO TODAY

A good first step, not yet a sales tool.

Services page shows template text
“Web Design”, “Graphic Design”, not machinery.

Contact details are placeholders
A sample email and a US phone number.

Nothing for Google to rank
Four pages, no product or machinery pages.

No enquiry follow-up
No WhatsApp, CRM or automatic replies.

WHY TWO WEBSITES

Two audiences who never search for the same thing.

WEBSITE 1 · CORPORATE

Logsco Agri Technology

Procurement teams, estates, agencies and partners.

“pineapple grading machine malaysia”

“CPPC equipment supplier”

- Specs, case studies and registrations
- Quotations and site visits
- Trust: MOF, CIDB, clients, support

WEBSITE 2 · BRAND

Pina Boosta

Drinkers, fans and the shops that want to stock it.

“pineapple energy drink”

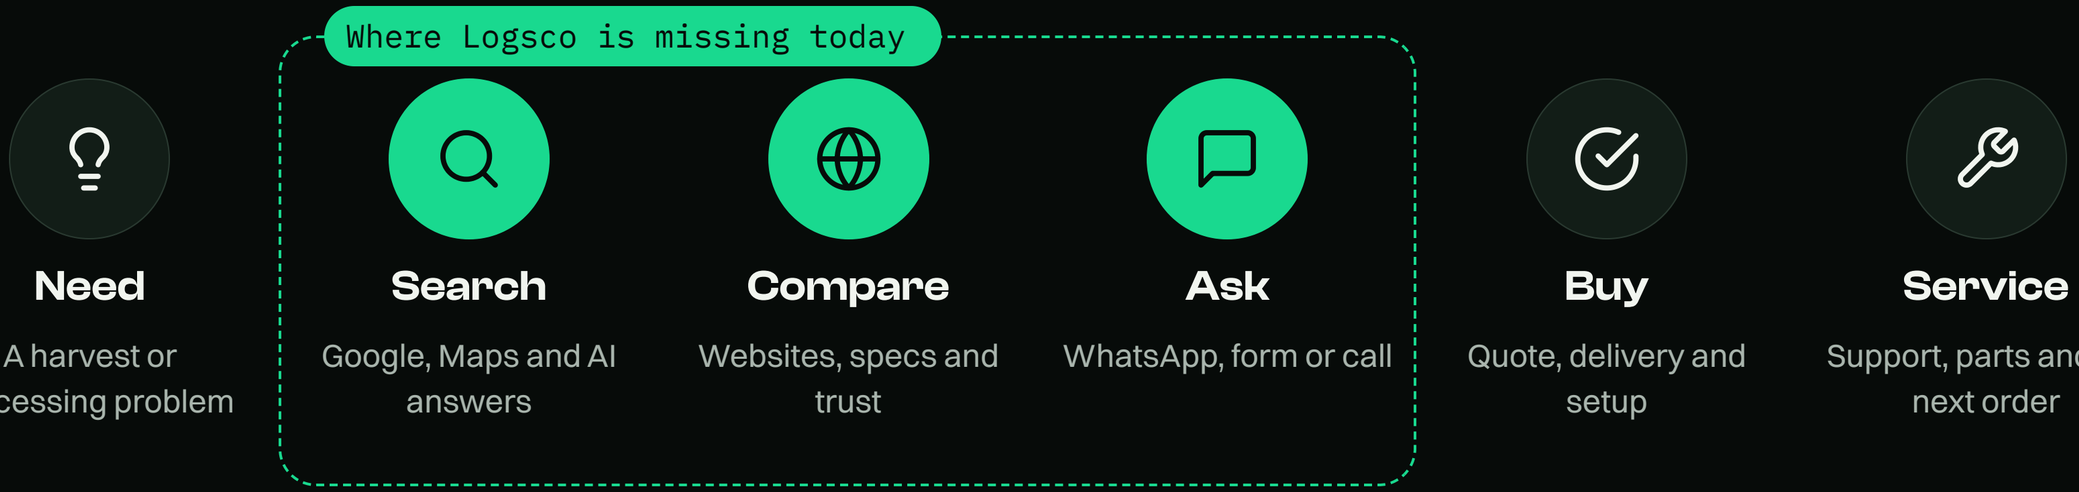

“pina boosta where to buy”

- Taste, mood and lifestyle
- Where to buy, drops and the café
- Trust: halal, ingredients, reviews

One site for both confuses buyers, drinkers and Google. Two sites, run by one team on one plan, serve each audience properly.

THE BUYER'S JOURNEY

How a farm finds a machinery supplier.

If Logsco isn't there when they search, compare and ask, the sale goes to the supplier who is.

WHAT WE BUILD AND RUN FOR LOGSCO

Four building blocks, across both sites.

01

Two websites

A corporate site that sells machinery, and a brand site that sells the drink.

02

Digital infrastructure

Domains, email, analytics, CRM and WhatsApp, shared by both.

03

Google visibility

SEO, Google Maps and AI search for buyers and for drinkers.

04

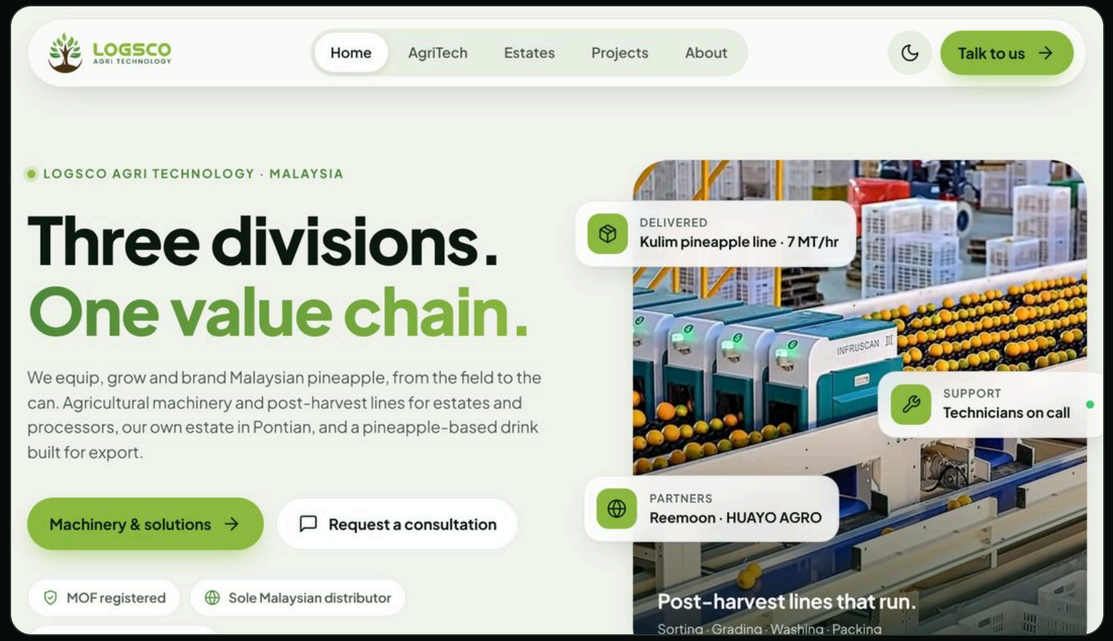

AI agents & automation

Inbound answered 24/7, outbound that fills the sales pipeline.

Found on Google → **Visitors trust the site** → **Enquiries captured** → **More machines and drinks sold**

01 · WEBSITES

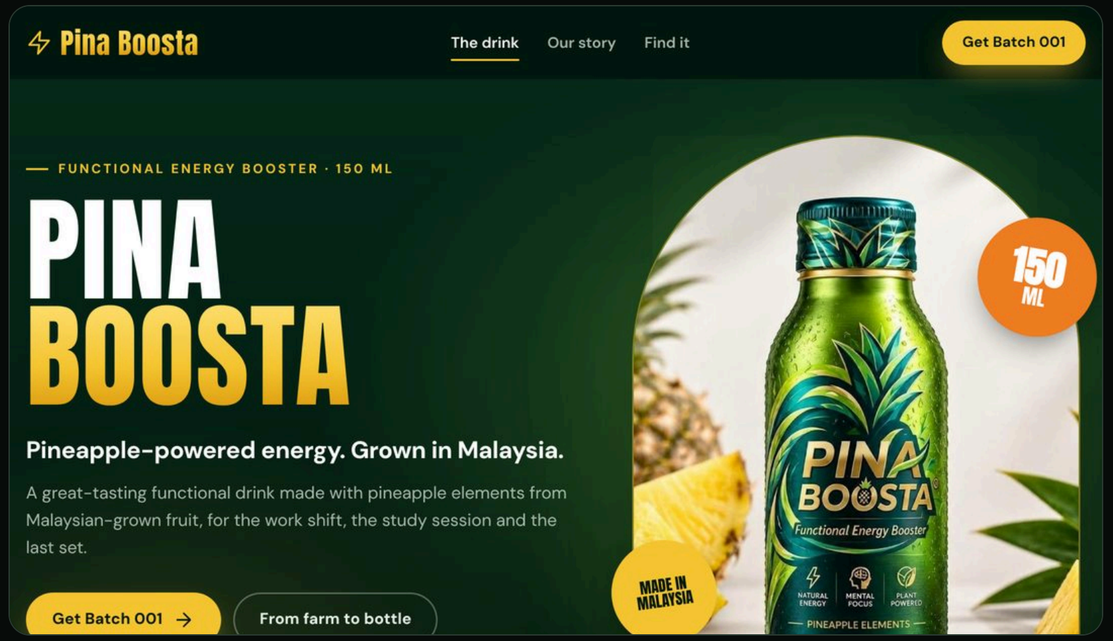

Two sites, already drafted.

1 Corporate site

Built on Concept A. Machinery, estates, projects and the group story.

Home · AgriTech · Estates · Projects · About · Contact

2 Pina Boosta

Its own bold look. The drink, the farm story and where to buy.

The drink · Our story · Find it

Live drafts: ummah-collective.com/concepts/logsco · password protected

02 · DIGITAL INFRASTRUCTURE

One foundation behind both sites.

Everything is measured on both sites: which searches bring buyers, which bring drinkers, and what each enquiry becomes.

03 · GOOGLE VISIBILITY

Be the answer, whoever is searching.

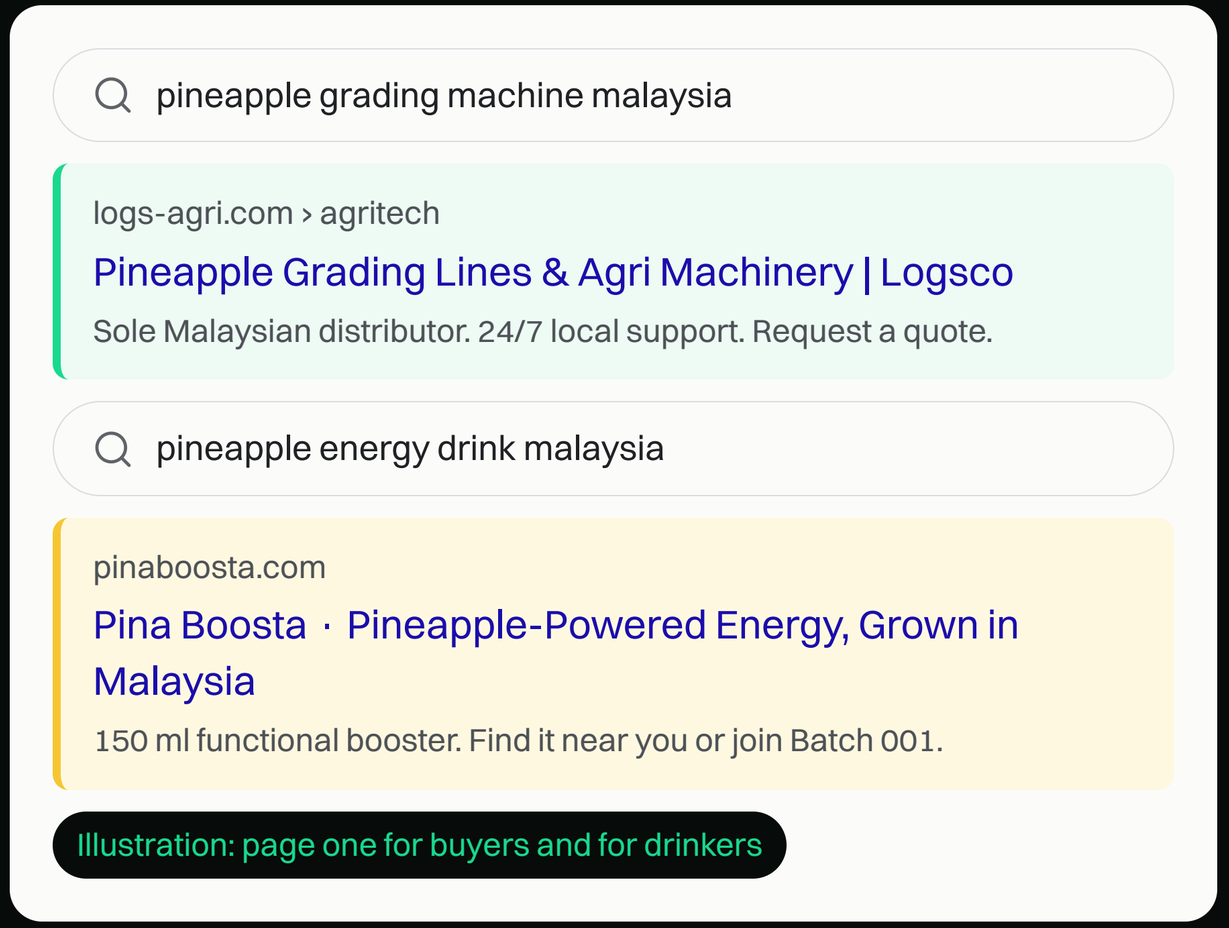

Illustration: page one for buyers and for drinkers

Technical SEO

Fast, mobile, indexable, structured data.

Content

Machine and estate pages for buyers; drink, halal and stockist pages for Pina Boosta.

Local

Google profiles for HQ in Masai and the Pontian estate café.

Authority and AI search

Partner, press and directory links, answers in ChatGPT and AI Overviews.

03 · GOOGLE VISIBILITY

Two sites Google can understand.

Corporate site					Pina Boosta		
AgriTech	**Estates**	**Projects**	**About**	**Contact**	**The drink**	**Our story**	**Find it**
A page per machine	Pontian estate	Kulim case study	Values and leadership	Enquiry routing	Benefits and FAQ	Farm to bottle	Café and stockists
Reemoon · HUAYO AGRO	Tours and demo visits	Next installations	SSM · CIDB · MOF	WhatsApp and map	Halal and ingredients	Visit the estate	Batch 001 and trade
Sectors and CPPC							

Each page answers one search. Buyer searches land on the corporate site, drink searches on Pina Boosta, so neither site dilutes the other.

A WEBSITE IS MONTHLY WORK

Launch is day one. Ranking is built month by month.

Google ranks sites that keep growing: new pages, better pages, more trust. That is why the build and the monthly plan belong together.

Month 1

Launch

- Both sites live and fast
- Google indexes every page
- Tracking and Search Console on

Months 2–3

Foundation

- First machine, estate and drink pages
- Google profiles for HQ and café
- First keywords start to move

Months 4–6

Authority

- Partner, press and directory links
- Content answers buyer questions
- First page-one rankings

Months 7–12

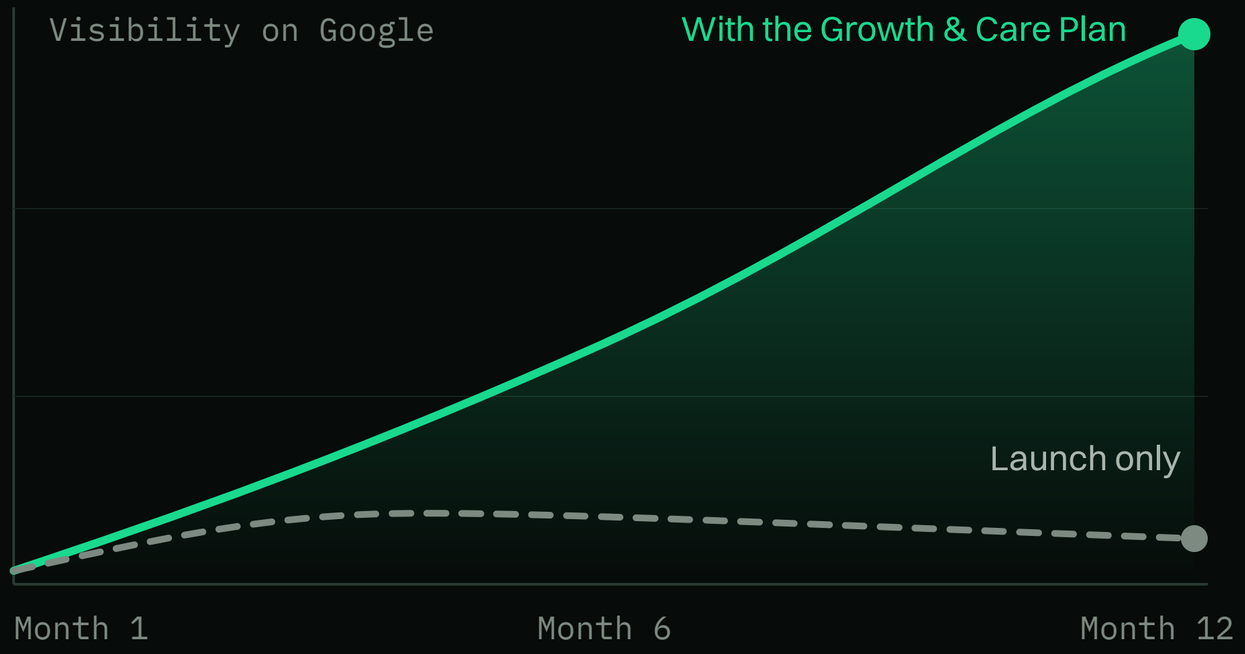

Compounding

- More pages ranking each month
- Pages tuned to convert better
- Enquiries grow from search

Every month adds 4 new pages across both sites. By month 12 that is 48 more ways to be found.

WHY SEO IS MONTHLY WORK

SEO compounds, like interest.

Google rewards fresh pages
Every new page is another way to be found.

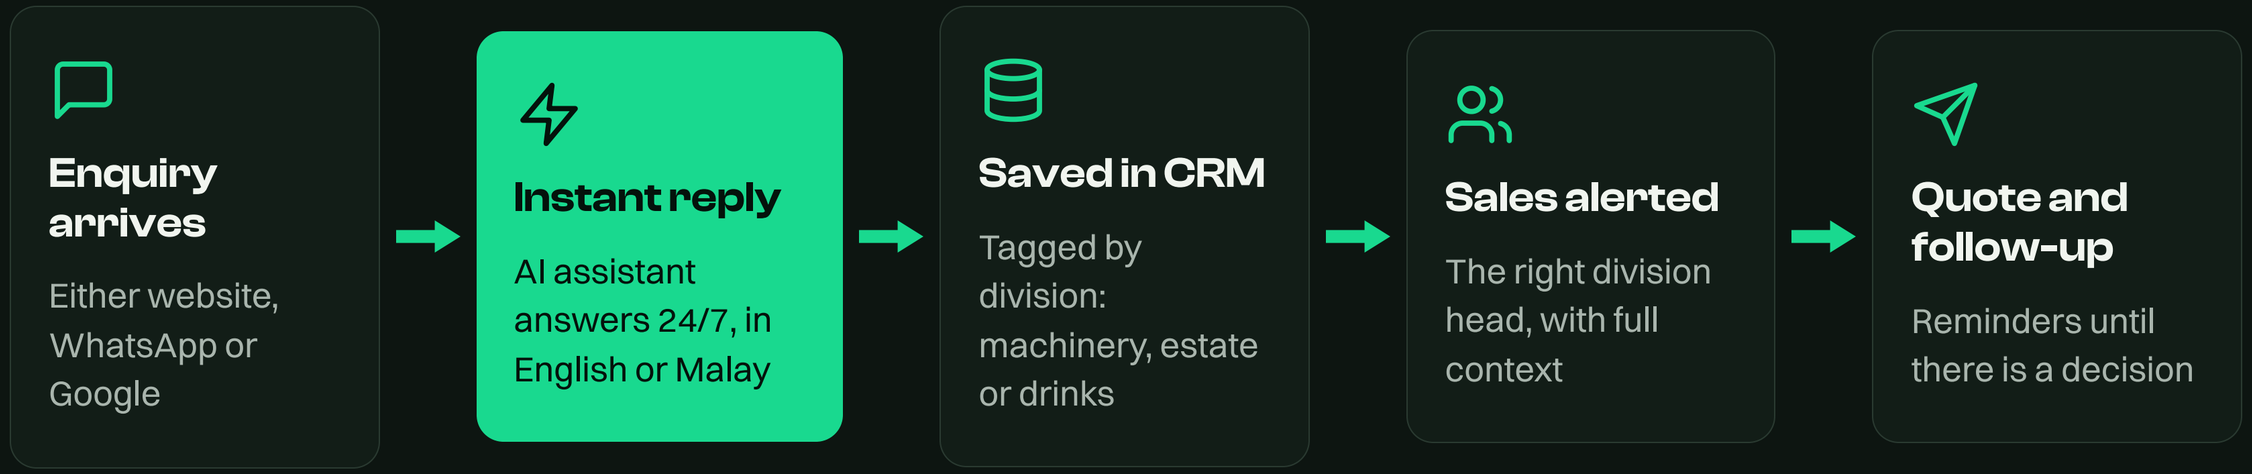

Competitors don’t stop
Standing still means slowly sliding down.

Search keeps changing
Google updates, Maps and AI answers.

Illustration of the typical pattern, not a forecast.

04 · INBOUND AUTOMATION

Every enquiry answered and followed up.

- No enquiry gets lost
- Replies in minutes, not days
- Stockists and repeat orders followed up

05 · AI AGENTS FOR GROWTH

Don’t wait to be found. Go and get the buyers.

Add-on · scoped separately

SEO brings buyers who are already searching. Outbound reaches the ones who aren’t yet. Our AI agents run it day and night, and your team only talks to people who are interested.

Research
Lists of the exact buyers

→

Outreach
Personal, compliant email and LinkedIn

→

AI replies
Agent answers and qualifies, 24/7

→

Meeting booked
Straight into the sales calendar

→

CRM
Tracked until the deal closes

For AgriTech: who we’d target

- Pineapple and fruit estates
- Plantation groups
- CPPC operators
- Agri agencies and GLCs
- Exporters across ASEAN

For Pina Boosta: who we’d target

- Convenience chains
- Gyms and sports clubs
- Cafés and campuses
- Distributors
- Export importers

The same engine we run for our own studio. Outbound fills this quarter; SEO fills every quarter after.

MAINTENANCE

Two websites are two machines. Both need servicing.

Without maintenance

- Security gaps, hacked or offline site
- A broken form loses enquiries silently
- Old machines, stockists and photos
- Slower pages, falling rankings

With the Growth & Care Plan

- Updates, backups and monitoring
- Forms and WhatsApp tested monthly
- Both sites kept current within days
- Speed and rankings checked monthly

You service your machines before they break. Your websites deserve the same.

THE OFFER

Growth & Care Plan, both websites

The corporate site and Pina Boosta, built and then optimised every month to rank, by one team.

~~RM 3,000 if run separately~~

RM 2,850

per month for both sites · about RM 95 a day

Get found

- 2 new SEO pages or articles per site, every month
- Keyword and ranking tracking for both
- On-page improvements
- Google profiles for HQ and the estate café

Safe and working

- Hosting, SSL and uptime monitoring
- Security and software updates
- Weekly backups of both sites
- Form and WhatsApp tests

Report and improve

- Up to 6 hours of content updates
- CRM and automation upkeep
- One monthly report covering both
- 30-minute review call

Week 1
Check rankings, plan topics

Week 2
Publish new pages on both

Week 3
Updates and Google profiles

Week 4
Report and review call

PROPOSED TIMELINE

Both sites live within eight weeks.

Dashed lines: launches. Dates depend on receiving content.

NEXT STEPS

Let’s launch both together.

01 Confirm the two-site plan and the drafts.

02 Share the product list, photos, estate and Pina Boosta details.

03 Sign off: RM 2,850/month for both sites, plus outbound if you want to scale faster.
